Essay: Introduce the essay topic, organize ideas and then individual brainstorming & writing.

Timing: 15 minutes.

This will be completed in the students' Essay Notebooks

Note: None of this should be on the PPT. This should all be done on the whiteboard. The last slide of the PPT should be the essay question.

Topic: Please enter the topic you have chosen for this lesson. Only include that topic, do not include the other topic.

Step 1: Break down the topic

Explain the keywords in the topic and what information the question is asking for.

Step 2: Discussion

Link back to the discussions and idea creation from the warm-up, task 1, and task 2.

Step 3: Idea organization (Optional)

From the discussion, organize the ideas of the board. For some classes, this can be skipped if students can confidently brainstorm individually.

Step 4: Individual brainstorming

Give students 5-10 minutes to fill in their brainstorming pages depending on their level. Go around and check on each student. Give strict time limits and encourage either full sentences or keyword brainstorming depending on the level.

Step 5 – Focused writing

If needed and time allows, quickly review one part of the essay and have students complete it during class. **Students should not write the whole essay during class.**

Essay Board Work: This should be done by the teacher before going into class.
