

Vacation Guidelines

The following guidelines have been established to ensure smooth operations and to allow all teachers to take leave in a fair and systematic manner. Vacation requests must be submitted in advance and will be confirmed upon approval through NHR. We kindly ask for your cooperation in minimizing work disruptions and ensuring equitable leave distribution among all teachers. For further details, please refer to the guidelines below.

1. Advance Booking Limit

- Teachers can request vacation up to **10 months in advance**.
- Accepting vacation requests too early may create an unfair advantage, allowing some employees to secure specific timeframes before others have the chance. To ensure fairness, vacation requests will only be accepted within the designated timeframe.

2. Vacation Waitlist

- If days are currently unavailable, you can request to be added to the waitlist for those days.
- NHR will contact you if the day becomes available at a later date due to cancellation or increased vacation availability.

3. Holiday & Peak Season Restrictions

- Teachers **cannot book multiple major holidays** (e.g., those who take vacation for Seollal cannot request vacation for Chuseok).
- Other factors may be considered when granting vacation during peak seasons to ensure fair vacation distribution.
- Peak vacation periods include Seollal, Chuseok, Christmas and bridging days between national holidays and weekends.

4. Vacation Allotment

- Your total vacation allotment is stated on the first page of your contract.
- For a first-year contract, 11 days of vacation are available. One day of vacation is accrued each month for the first six months. All 11 days become available after the first six months.
- For second-year contracts, 15 days of vacation are available. All vacation days are available from the start of the contract.
- Vacation allotment increases following the Korean Labor Standards Act.

5. Changing or Cancelling Vacation

- Contact NHR directly to request changes to vacation days or cancellation.
- Once changes are confirmed, NHR will request an updated *Vacation Request Form*.
- Please provide sufficient notice of cancellation to allow others the opportunity to take vacation.
- Inform your team leader of any cancellations or changes to your vacation.

6. Campus-wide Leave Limitations

- To ensure adequate class coverage and minimize disruptions, each campus has a limit on the number of teachers who can take leave on the same days.
- This also applies to substitute teachers and Song's/Athena teachers.

7. Recurring Vacation Restriction

- Booking the same day off for multiple weeks is not possible as it has a negative impact on the students and campus. (e.g. booking every Friday off for 4 weeks.)

8. Sick Leave

- If sick leave is needed, please follow the sick day procedures as outlined in the *Contacting NHR* document.
- Upon your return to work, NHR will request the submission of a *Vacation Request Form* for the days absent from work.
- There is no separate sick leave allotment. As such, sick leave is taken from your vacation allotment.

9. Unpaid Leave

- Unpaid leave is not permitted under normal circumstances.
- Unpaid leave may only be requested in unavoidable emergencies (e.g. in the event of an accident, surgery, etc.), and in such cases, a detailed written explanation must be submitted to NHR. Please note that submission of a request does not guarantee approval. Depending on personal circumstances, leave can be discussion with NET Coordinators before contacting NHR.
- Unpaid leave will only be considered if all paid leave during the contract period has been used.
- Depending on the number of DYB fixed vacation days within the contract period, unpaid leave may be considered up to an equal number of days.
- Approval of unpaid leave is not an automatic entitlement and will be granted at the company's discretion.

10. Vacation Cancellation Due to Insufficient Leave Balance

- Previously booked vacation may need to be cancelled if a teacher's full allotment of paid vacation leave is reached before the scheduled vacation days. This may occur if unplanned days off are used for sickness or emergencies.
- NHR will contact teachers to discuss any necessary amendments or cancellations to scheduled vacation. As noted above, scheduled leave cannot be converted to unpaid leave unless approved by NHR after receiving a detailed explanation in writing.

Vacation Guidelines

Special Vacation Allowances

The following special vacation allowances are granted to teachers in addition to their annual paid vacation. Proof is required for the special vacation leave to be granted.

1. Company-Granted Leave

The following leave allowances are not mandated by law but are provided under company policy:

- **Bereavement Leave**
 - Loss of a parent or spouse: 5 days
 - Loss of a sibling or child: 3 days
 - Loss of a grandparent: 1 day
 - Bereavement leave also applies to the loss of a spouse's immediate family members (same as outlined above).
 - Bereavement leave begins on the date of death and includes weekends and red days (e.g., if the death occurs on a Saturday, the Saturday is counted as a leave day).
 - Bereavement leave cannot be postponed or used at a later date.
- **Marriage Leave**
 - 5 working days
 - Marriage leave begins on the first working day following the wedding ceremony.
 - Weekends are excluded; the leave consists of five working days.
 - Marriage leave cannot be postponed or used at a later date.

2. Legally Mandated Leave

DYB follows labor law regarding the following types of leave. As updates and changes may occur, please consult NHR for the most current information.

- **Maternity & Paternity Leave**
 - As defined by applicable labor law.
