What is Lesson Planning?

At DYB, we have the freedom and flexibility of teaching our own lesson plans made those of other Native English Teachers (NETs). Our lessons are based on the students' reading book topics covered by Korean Teachers (KTs).

Each week, NETs create a lesson assigned according to the lesson planning schedule. These lessons are then shared on Dropbox for all NETs to use. We aim to offer a selection of lessons for each unit to provide options for each class.

Aims

NET classes, and therefore our content, should link back to the unit read with the Korean teacher.

KT classes focus on the receptive skills, listening and reading, along with teaching grammar and vocabulary. As such, **grammar does not need to be the sole focus of our lessons**. Our aim is to have students speak or write freely using target language at the end of the class. **This can be supported with a grammar point**, but it doesn't have to be the key focus. A good lesson should aim for the following:

- Enjoyable content that has significant educational value.
- Challenge students to use the reading book unit topic and lesson target skill in accordance with the DYB Circular System.
 - **Refer to page 3 of the DYB Training Book**
- **Active participation** and **interaction** between students.
- **Frequent** and **equal** opportunities to use English.

Benefits

Weekly lesson creation ensures fresh, relevant content along with continuous improvements in quality. By creating our own lessons, we can tailor the content and difficulty to best suit our students' needs and have the flexibility to adjust and adapt lessons for our own classes.

The lesson creation process helps us to improve as teachers as we can reflect on our classes consider what our students need and how they responded to content. Always reflect on your lesson and consider what went well and how it could be improved. Exposure to other teachers' lessons can help improve our own lesson creation and classroom outcomes.

Types of NET Lessons

Lessons fall into the following categories:

Speaking – A speaking lesson should aim to have students speaking freely about the unit topic and using the target language. A reduction in the amount students are expected to write should be noticeable in this type of lesson.

Writing –

- **Writing Lesson**– A writing lesson should aim to have students writing in some format based on the topic they studied and using the target language. Writing can take place on worksheets, the whiteboard, on mini whiteboards, or poster paper.
- **Essay Writing** – Every two weeks, students have an essay lesson to assist with essay writing skills and idea formation for their online essays.
 - For elementary, we use our NET essay workbooks. For middle school, we create essay lessons.

Skill & Event Lessons – Skill lessons are not based on a reading book. These are usually taught in the first week of the semester to give the Korean teacher the opportunity to read the first unit of the book with the students before we teach a lesson based on it. Event lessons are based around upcoming holidays or events.

Lesson Structure

On the next page, there is the detailed overview of the structure of a DYB lesson. This should be followed making a lesson. **Consider the purpose of each section, how it links to the sections before and after it, and how long each section should take as a percentage of the total class time (50 minutes).**

As with everything, there is flexibility, and it is best to be overprepared rather than underprepared. Class size, ability, and engagement can vary between days of the week, co-teachers, and campuses. As such, content will likely need to be adjusted by each individual teacher to best suit their classes. Please keep this in mind when creating lessons, as other teachers at DYB are relying on your lessons and being able to easily adapt them.

For example, some classes may only need two practices to show full comprehension of the target language. However, other classes may require a third practice to better understand and to be ready for the production activity. As teachers, we have the autonomy and flexibility to adjust lessons as needed either before, during, or after the class.

Lesson Structure

Lesson Structure

A good lesson is one that flows, is formatted well, and is uncluttered. Simple and relatable examples should be used and lessons should link back to the unit often. Our lessons should not only help students learn, but enjoy learning.

Pre-Lesson Engagement (PLE) (10%)

Discussion Questions

- Discussion questions to help elicit ideas about the topic.

Vocabulary

- Review important topic vocabulary words, these words will be used in the comprehension questions or during the lesson, so a quick recap is useful.
- Turn this into a simple game or activity to engage the students.

Comprehension Questions

- Four or five comprehension questions to check the students' understanding of the topic they studied previously with their Korean teacher.

The PLE is completed verbally and is not included on the PPT

Warm-Up Activity (15%)

- This should be a fun and engaging activity that gets the students to subtly start using the skill or vocabulary for the lesson. It can also be useful to check their existing ability.

Practice (25%-35%)

- This starts with the teacher driven portion of the class that should involve the most teaching, board work, and working together.
- Use scaffolded controlled practices to give students particular speaking or writing skills that are **required for the production**.
- Two or three activities can normally ensure that students have practiced the skill sufficiently.
- Guide students, correct mistakes, and give positive reinforcement.

Production (35%-45%)

- This is the student driven portion of the class where students use what they learned to independently complete a piece of writing or a speaking exercise.
- Try to reduce the teacher focus during this time to allow for maximum language usage by students.
- Monitor and guide the students as needed and make note of any errors.
- Correct any errors after the exercise.

Closure (5%)

- Reinforce the skill taught and discover if you reached your goal of the class.
- A quick skill review question can work well.

Lesson Template

Below is the standard lesson template for a normal speaking or writing lesson. This template is used for both elementary and middle school lessons. **You should already be familiar with these pages from your first few weeks of teaching.**

Update the header following the directions box on the template.

Unit 1 – Topic

Book: Book name

To edit the header, click "View" > "Slide Master", and go to the very first slide. Add your header, click "Close Master View", and then delete this box.

What to teach? *Jan 2026Template*

How to teach?

Materials:	PLE: N/A Warm-up: Materials Practice: Materials	Production: Materials Closure: N/A
------------	---	---------------------------------------

Pre-Lesson Engagement: A review of the content and vocabulary from the reading.

Target Timing: 5-7 minutes.

Notes: Discussion questions should elicit discussion – do not use yes/no questions. Start the class with discussions questions, not "How was your weekend?".

Part 1: Discussion Questions
Purpose: To reintroduce the topic covered in the KT's class.

Use the following questions to elicit a classroom discussion.

PLEASE DO NOT INCLUDE ANY PLE ACTIVITIES ON THE PPT. Please delete this box.

Questions:

- Question (Answers will vary)
- Question (Answers will vary)

Part 2: Vocabulary Review
Purpose: To check keywords that students will see in the lesson.

Instructions

Words: (3 for Middle School - 5 for Elementary – must appear in activities, please note the activity each word is used in.)

WORD – Definition (Activity:)
 WORD – Definition (Activity:)
 WORD – Definition (Activity:)
 WORD – Definition (Activity:)
 WORD – Definition (Activity:)

Please add the filename in "Slide Master" on the second slide. Delete this box after editing. Check the term schedule for file naming guidelines. It should reflect the skill, not the topic.

Filename:

Complete the basic information.

Add a clear aim for the lesson.
(SWBAT = Students will be able to ...)

What materials are needed. (Worksheets, dice, coloring pencils, etc.)

Detailed purpose statements, teaching directions / notes, and answers for each section of the lesson.

Alternative teaching approaches could be included.

Remember, other teachers rely on these to teach your lesson!

Follow the directions to add the filename.

Lesson Template

This will automatically update for all the pages after you do it on the first page.

Continued notes about the Pre-Lesson Engagement section.

Approximate timings are also given. (These timings follow the percentage breakdown for a 50 minute lesson)

Teaching notes for the Warm-up section. If more space is needed, you can create a new page.

For the rest of the teacher pages, you will need to complete the purpose statements yourself.

This is not what to do, but WHY students are doing it. What is the desired outcome of the activity?

Unit 1 – Topic

Book: Book name

Part 3: Comprehension Questions
Purpose: To check deeper understanding of the topic.
 Test comprehension as you see fit. Keep questions simple and general to the topic when possible. For elementary, please use Wh-questions. For middle school, please use True/False questions.

Purpose: Please write the purpose of the activity and what students should achieve

Key Instructions:

Additional Notes:

Filename:

Lesson Template

Important reminders for each section of the lesson are included under "Notes".

Only the Target Skill / Language section needs to be completed by the lesson planner.

Boardwork Preparation Notes are for teachers to complete before class.

Unit 1 – Topic

Book: Book name

Teach: Teach the target skill or language.

Timing: 5 minutes.

Notes: Teacher focused but CCQs should be used frequently and examples elicited from students. Prior preparation is required to ensure student engagement and understanding. **Teachers will complete the Boardwork Preparation Notes themselves before teaching the lesson.**

Purpose: To teach the target skill in a comprehensive and engaging way.

Target Skill/Language:

Boardwork Preparation Notes

Skill Explanation:

Language Structure & Boardwork:

Please add only the Target Skill / Language above.

The Boardwork Preparation Notes are to be completed by individual teachers before class.

Please delete this box.

Teaching Considerations & CCQs:

Practice: Practice the skill.

Timing: 15-20 minutes.

Notes: Consider interactions and opportunities for students to use English. Pair and group work for later practices is ideal. Activities should normally increase in difficulty and build on each other with the aim of enabling students to freely use the skill in the production.

Part 1: Title

Purpose: Please write the purpose of the activity and what students should achieve

Key Instructions:

Additional Notes:

Answer Key:
Answers

Filename:

The yellow box should be placed over any teaching review slide on the lesson (PPT). It is included in the (DOC) template for convenience. Refer to the example lesson PPT.

Lesson Template

Key Instructions should be simple one sentence explanations.
More detailed instructions or considerations can be provided
under Additional Notes.

Example Lesson

Below is an example of a reading that the students may complete. When teaching our classes, we should be aiming for students to use key vocabulary and themes from the reading.

On the following pages, you will find a lesson made for this unit. The lesson consists of the teacher pages, the student worksheets, and a corresponding PPT.

This is a speaking lesson made for the Basic & Beginner levels of Grade 6 (Helios & Poseidon).

unit 03
Extreme Sports
Do It for the Rush

Food for Thought
Think about the questions below and discuss them with a partner.
1. What are some examples of extreme sports?
2. Would you ever go skydiving?
3. What extreme sport do you think is most dangerous?

Reading

EXTREME SPORTS

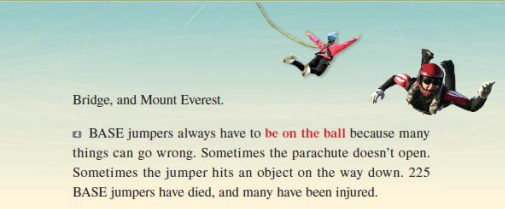

What Are Extreme Sports?

Extreme sports are very risky. They usually involve high speeds or great heights, and require special skills and equipment. You might think that people who enjoy these sports are **not playing with a full deck**. If the player makes a mistake, there is a risk of **injury** or even death. However, some people like extreme sports because they're more exciting than **traditional** sports.

Here's a look at some extreme sports that have been **invented** in recent years.

BASE Jumping

BASE jumpers use **parachutes** to jump off buildings, antennas, spans, or earth (like a cliff) – which is what the acronym B-A-S-E **stands for**. The first BASE jumpers jumped from a 900-meter-high rock in 1978. By 1980, people were jumping from towers, **canyons**, cliffs, and bridges. Since then, BASE jumpers have jumped from many **landmarks**, including the Eiffel Tower, the Sydney Harbor

Bridge, and Mount Everest.

BASE jumpers always have to **be on the ball** because many things can go wrong. Sometimes the parachute doesn't open. Sometimes the jumper hits an object on the way down. 225 BASE jumpers have died, and many have been injured.

Less Dangerous Extreme Sports

Bungee jumping started in England in 1979. At first, it was practiced by a few **adventurous** young people. Now, bungee jumping is a big business around the world.

Bungee jumpers **attach** a long **rubber** cord to their bodies and jump from a bridge, tower, or crane. The cord must be measured carefully so the jumper doesn't hit the ground. Some bungee jumpers have died, but serious accidents are rare.

Another new sport is zorbing, which was invented in New Zealand in 1994. A zorb is a 3-meter plastic sphere with a 2-meter sphere inside. A rider climbs in the sphere and rolls down a grassy hill. A cushion of air between the spheres protects the rider from injury.

Maybe you would like to try an extreme sport, or maybe you can invent a new one.

Vocabulary

Main Vocabulary

- Extreme** [ik-streem] : great in degree, far from ordinary
- Risky** [ris-kee] : potentially dangerous
- To involve** [in-volv] : to include
- To require** [ri-kwair] : to need
- An injury** [in-juh-ree] : harm or damage
- Traditional** [truh-dish-uh-nel] : commonly done, used, or found
- To invent** [in-vent] : to create or design something original and new
- A parachute** [par-uh-shoot] : an umbrella-like device used to slow falling speed
- A span** [span] : a bridge between two places
- A canyon** [kan-yuhn] : a deep valley with steep sides
- A landmark** [land-maerk] : a famous object, building, or place
- Adventurous** [ad-ven-cher-uh-s] : willing to do new, dangerous, or exciting things
- To attach** [uh-tach] : to fasten or connect
- Rubber** [juh-b-er] : made of rubber; a strong substance that stretches
- A sphere** [speer] : a 3D circle

Auxiliary Vocabulary

- Equipment** [ih-keep-muhn] : anything used for a specific purpose or task
- Recent** [ree-suhnt] : not long past
- An acronym** [ik-suh-nim] : the first letters of a group of words, as in "NASA" which stands for National Aeronautics and Space Administration
- Grassy** [gres-ee] : covered with grass

Idioms and Phrasal Verbs

Not playing with a full deck - This means "a little crazy."
When I said I was going to hunt the lion by myself, my friends told me that I wasn't playing with a full deck.

Stand for - To represent, especially when talking about abbreviations and acronyms.
The acronym BASE, in BASE jumping, stands for buildings, antennas, spans, and earth.

Be on the ball - This is a sports metaphor that means "to be alert."
You have to be on the ball if you want to spot the secret of the magician's trick.

Unit 3 – Extreme Sports

Do Your Best!

Book: Real Deep 7 Basic

What to teach?

Jan 2026 Template

Original Creator:	Peter W.	Level:	Poseidon
Reviewer:	Alea	Focus: (SP/WR)	SP
Book Name:	Real Deep 7 Basic	Unit / Chapter:	Unit 3
Book Topic:	Extreme Sports	Pages:	Pages 34 - 36
Skill:	Do, Play, Go		

Why to teach?

SWBAT – Students will be able to ...

Lesson Objective:

SWBAT use 'do', 'play', and 'go' correctly in a sentence.

How to teach?

Materials:	PLE: N/A Warm-up: PPT Practice: PPT, Worksheets	Production: PPT Closure: PPT
-------------------	--	---

Pre-Lesson Engagement: A review of the content and vocabulary from the reading.

Target Timing: 5-7 minutes.

Notes: Discussion questions should elicit discussion – do not use yes/no questions. Start the class with discussions questions, not "How was your weekend?".

Part 1: Discussion Questions

Purpose: To reintroduce the topic covered in the KT's class.

Use the following questions to elicit a classroom discussion about the topic.

Questions:

1. Is skiing a dangerous sport? Why or why not? (**Answers will vary**)
2. Would you like to try bungee jumping? Why or why not? (**Answers will vary**)

Part 2: Vocabulary Review

Purpose: To check keywords that students will see in the lesson.

Read the definitions and have students guess the correct vocabulary word. Afterwards, have students tell their partner a sentence using one of the words.

Words: (3 for Middle School - 5 for Elementary – must appear in activities, please note the activity each word is used in.)

SPHERE – *noun*. a 3D circle (**Activity:** Practice 3)

LANDMARK – *noun*. a famous object, building, or place (**Activity:** Practice 3)

CANYON – *noun*. a deep valley with deep sides (**Activity:** Warm-up)

INJURY – *noun*. harm or damage (**Activity:** Warm-up)

EXTREME – *adjective*. great in degree, far from ordinary (**Activity:** Warm-up, Practice 3, Closure)

Filename: RD7BA U3 SP Do Play Go BDG U26 (DOC)

Unit 3 – Extreme Sports

Do Your Best!

Book: Real Deep 7 Basic

Part 3: Comprehension Questions

Purpose: To check deeper understanding of the topic.

Test comprehension as you see fit. Keep questions simple and general to the topic when possible. For elementary, please use Wh-questions. For middle school, please use True/False questions.

1. **Question:** What are extreme sports?
A: They are very risky sports that have a high risk of injury or even death.
2. **Question:** What do extreme sports usually require?
A: Extreme sports usually require high speeds or great heights, special skills, and equipment.
3. **Question:** In which country did bungee jumping start?
A: In England in 1979.
4. **Question:** What is a zorb (used for zorbing)?
A: A zorb is a 3-meter plastic sphere filled with air.
5. **Question:** What extreme sport involved canyons or landmarks?
A: BASE jumping.

Warm-up: An engaging activity that subtly introduces the skill or expands upon the topic.

Timing: 7 minutes.

Notes: Consider if the activity encourages participation from all students. Avoid yes/no interactions.

Part 1: Guess the Extreme Sport

Purpose: To introduce and possibly elicit the target language through a fun quiz.

Key Instructions:

Students guess what the extreme sport is based off of hints and parts of an image.

Additional Notes:

1. Students are to guess the extreme sport based on the clues provided.
2. Click anywhere on the page for clues to appear and part of the picture to be revealed.
3. The 3rd sentence is the final clue.
4. To reveal the answer, click on the 'Answer!' box.

Answer Key:

1. sandboarding
2. bungee jumping
3. motocross
4. rock climbing
5. skydiving
6. surfing
7. river rafting
8. wingsuit flying

Filename: RD7BA U3 SP Do Play Go BDG U26 (DOC)

Unit 3 – Extreme Sports

Book: Real Deep 7 Basic

Teach: Teach the target skill or language.

Timing: 5 minutes.

Notes: Teacher focused but CCQs should be used frequently and examples elicited from students. Prior preparation is required to ensure student engagement and understanding. **Teachers will complete the Boardwork Preparation Notes themselves before teaching the lesson.**

Purpose: To teach the target skill in a comprehensive and engaging way.

Target Skill/Language:

Do, Play, GO

Boardwork Preparation Notes

Skill Explanation:

Language Structure & Boardwork Layout:

Teaching Considerations & CCQs:

Practice: Practice the skill.

Timing: 15-20 minutes.

Notes: Consider interactions and opportunities for students to use English. Pair and group work for later practices is ideal. Activities should normally increase in difficulty and build on each other with the aim of enabling students to freely use the skill in the production.

Part 1: Go/Play/Do Boxes

Purpose: To check if students can correctly identify each sport and the appropriate verb to use.

Key Instructions: Students are to write the words in the correct box based on which verb (go/play/do) is used before it.

Additional Notes:

1. There is a list of 20 activities.
2. The students sort the activities into the box that has the correct verb that is used before it.

Answer Key:

- GO: camping, ice-skating, running, hiking, dancing, bowling, fishing, surfing,
- PLAY: tennis, table tennis, golf, baseball, basketball, hockey
- DO: exercise, aerobics, yoga, push-ups, gymnastics, sit-ups

Filename: RD7BA U3 SP Do Play Go BDG U26 (DOC)

Unit 3 – Extreme Sports

Book: Real Deep 7 Basic

Practice: Practice the skill continued.

Part 2: Complete the Sentences

Purpose: To provide students with model sentence patterns and have them use the target language in a full sentence.

Key Instructions: Students are to complete the sentences by writing go/play/do and the given sport/exercise.

Additional Notes:

1. The students fill in the blanks on their worksheet.
2. They use the activity in the parenthesis and add the correct verb (go, play, or do) before it.

Answer Key:

1. I **GO ZORBING** in a sphere.
2. You should always **DO A WARM-UP** before exercising at the gym.
3. I want to **GO SNOWBOARDING** because I love extreme sports.
4. I love to **PLAY DODGEBALL** during break time with my friends.
5. If you want a six-pack, you should **DO SIT-UPS** every day.
6. My dad likes to **GO GOLFING** every weekend.
7. I **PLAY SOCCER** with my friends last Sunday.
8. My family usually **GOES SIGHTSEEING** at famous landmarks.

Part 3: Spinning Wheel Questions

Purpose: To have students form a full sentence using the target language.

Key Instructions: The students will spin a wheel to make questions for the class. Then, the students need to answer the questions in full sentences.

Additional Notes:

1. Use the spinning wheel to complete the four questions as a class.
2. Make sure to spin the wheel 4 times so that each question has a different sport/activity.
3. Students are to answer the questions in full sentences.
4. Writing space has been provided on the worksheet. However, this activity can be done as a speaking activity.
5. Have students write their first answer on the worksheet if needed and then progress to speaking only.
6. This activity can also be done as pair work, with one student asking the question and the other answering.
7. Encourage students to provide reasons or have **at least 10 words** in their answer.

Questions:

1. Do you like to... go/play/do _____?
2. How often do you... go/play/do _____?
3. Where do you... go/play/do _____?
4. When last did you... go/play/do _____?

Spinning wheel options: soccer, camping, dodgeball, bowling, yoga, walking, walking, exercise

Answer Key: AWW

Example question: Do you like to...go/play/do golf ?

Example student written answer: Yes, I like to play golf because it's very fun!

Filename: RD7BA U3 SP Do Play Go BDG U26 (DOC)

Unit 3 – Extreme Sports

Book: Real Deep 7 Basic

Production: Combines the focus, topic, and skill of the lesson in a student-centered activity.

Timing: 15-20 minutes.

Notes: Aim to maximize students' speaking opportunities for SP lessons, **avoid** activities that only require 1 student to speak at a time. For WR lessons, try to push students and their abilities.

Part 1: Guns, Bombs, & Angels

Purpose: To have students freely produce the target language in full sentences.

Key Instructions: The students will play a game of Angels, Guns, & Bombs using do, play, and go.

Additional Notes:

1. Divide the class into 2 to 4 teams.
2. Each round, a student from one team will choose a row (I/me; my friend; my mom/dad; my brother/sister) and a column (running; hiking; baseball; yoga; basketball; swimming).
3. The student needs to use their selection to make a sentence using the grammar skill learned in the lesson (i.e.: go/play/do).
4. If they can make a sentence, you will reveal what is hidden behind the box.
5. Award points accordingly and keep tally of the teams' points on the left-hand side of the slide.
6. The team with the most points wins!

Example Student Response:

"I/me" + "running"

"I like to go running every morning for 30 minutes."

Closure: A time for the students to reflect on what they have learned in the class.

Timing: Under 3 minutes.

Notes: Sharing the production activity is not a closure.

Part 1: Favorite Extreme Sport

Purpose: To have students practice using the skill in a practical way.

Key Instructions:

Ask the students about their favorite extreme sports or ones they want to try. They will share their answers using go, play, and do.

Additional Notes:

1. Ask the students what their favorite extreme sport is OR an extreme sport they would like to try.
2. Have them share a sentence that includes that extreme sport and do/play/go.
3. **Some example extreme sports are: skiing, bungee jumping, rock climbing, skydiving, paragliding, zorbing, surfing, etc.**

Notes:

Fonts used (on student worksheet):

'Yellow Ginger'

<https://www.dafont.com/yellow-ginger.font>

'A Year Without Rain'

<https://www.1001fonts.com/a-year-without-rain-font.html>

Filename: RD7BA U3 SP Do Play Go BDG U26 (DOC)

Unit 3 – Extreme Sports

Do Your Best!

Book: Real Deep 7 (Beginner & Basic)

Practice

EXTREME SPORTS

Go, play, and do are all **verbs** used for sports, exercises, and other activities.
We need to learn when to use each **correctly**!

go

used for activities ending in **-ing**

(For example: Many children like to **go** swimming.)

play

used for **team sports** and **ball sports**

(For example: We usually **play** badminton on Saturdays.)

do

used for non-team sports and exercises

(For example: He is going to **do** yoga in the morning.)

Directions: Write each sport/activity in the correct box.

camping tennis exercise aerobics ice-skating table tennis
yoga running hiking push-ups gymnastics golf dancing
bowling fishing baseball basketball surfing sit-ups hockey

GO

PLAY

DO

Unit 3 – Extreme Sports

Book: Real Deep 7 (Beginner & Basic)

Practice

Directions: Complete the following sentences using the given word and 'go', 'play' or 'do'.

1. (jogging) I _____ every morning.
2. (a warm-up) You should always _____ before exercising at the gym.
3. (snowboarding) I want to _____ at a ski resort next winter.
4. (dodgeball) I love to _____ during break time with my friends.
5. (sit-ups) If you want a six pack, you should _____ every day.
6. (golfing) My dad likes to _____ every weekend.
7. (soccer) I _____ with my friends last Sunday.
8. (camping) My family usually _____ during spring when it's not too hot.

Directions: Answer, in full sentences, the questions in the PPT (at least **10 words** long).

1. _____

2. _____

3. _____

4. _____

Example Lesson

EXTREME SPORTS

Helios & Poseidon
Unit 2: Speaking

Real Deep 7: Basic & Beginner

WARM-UP

Guess the extreme sport based on the clues.

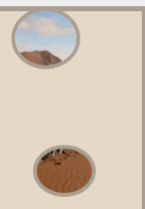

#1 GUESS THE EXTREME SPORT

- You usually do it in a hot place.
- You need a board.
- You do it in a desert.

answer!

*click above for the answer

pre-lesson

#2 GUESS THE EXTREME SPORT

- People think this is exciting.
- You need to be very brave.
- You do it from a high place.

answer!

*click above for the answer

pre-lesson

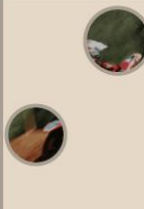

All answers are animated to reveal when clicked.

#3 GUESS THE EXTREME SPORT

- You need to ride something.
- You can do stunts.
- It is a race.

answer!

*click above for the answer

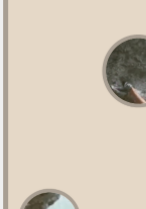

pre-lesson

#4 GUESS THE EXTREME SPORT

- It can be very risky.
- You need special safety equipment.
- If you have a fear of heights, you might not enjoy it.

answer!

pre-lesson

PRACTICE

Let's learn about the difference between play, do, and go when talking about sports.

GO / PLAY / DO

Used to teach the target language using the whiteboard

Example Lesson

Target language review slide with warning message. Hidden & optional.

GO / PLAY / DO
What's the difference?

Go, play, and do are all verbs used for sports, exercises, and other activities. We need to learn when to use each correctly!

go	U	
play	U	
do	U	

ATTENTION
This is a **REVIEW** slide. Not the teaching slide.
You **MUST** teach target skill/language yourself, using the board before using this slide to review. Complete the Boardwork Preparation Notes section on the teacher's page before class.
Delete this box before class as **confirmation** that you understand the above and are prepared to teach the class.
Please delete or hide this slide if you do not wish to use it.
For example: He is going to do yoga in the morning.

practice : part 1

GO / PLAY / DO BOXES

camping tennis exercise aerobics ice-skating table tennis
yoga running hiking push-ups gymnastics golf dancing
bowling fishing baseball basketball surfing sit-ups hockey

GO	PLAY	DO
camping ice-skating running hiking dancing bowling fishing surfing	tennis table tennis golf baseball basketball hockey	exercise aerobics yoga push-ups gymnastics sit-ups

practice : part 2

Clicking on the wheel makes it start or stop spinning.

COMPLETE THE SENTENCES

- (jogging) I go jogging every morning.
- (a warm-up) You should always do a warm-up before exercising at the gym.
- (snowboarding) I want to go snowboarding at a ski resort next winter.
- (dodgeball) I love to play dodgeball during break time with my friends.
- (sit-ups) If you want a six pack, you should do sit-ups every day.
- (golfing) My dad likes to go golfing every weekend.
- (soccer) I played soccer with my friends last Sunday.
- (camping) My family usually goes camping during spring when it's not too hot.

practice : part 3

ANSWER THE QUESTIONS

Use the spinning wheel to complete the four questions below (spin the wheel 4 times). Then, answer the questions with a full sentence. Write a sentence that is at least 10 words long.
Example question: Do you like to...go/play/do golf ?
Written answer: Yes, I like to play golf because it's very fun!

- Do you like to...go/play/do _____?
- How often do you...go/play/do _____?
- Where do you...go/play/do _____?
- When last did you...go/play/do _____?

SPIN

practice : part 4

PRODUCTION

Let's practice what we've learned today by playing 'Guns, Bombs & Angels'.

practice : part 5

Guns, Bombs & Angels

For example: "I/me" + "running"
I like to go running every morning for 30 minutes. +5 points steal 5 points -5 points

Team 1:		running	hiking	baseball	yoga	basketball	swimming
Team 2:	I / me						
Team 3:	my friend						
Team 4:	my mom / dad						
	my brother / sister						

production

Clicking on a square reveals a gun, bomb or angel.

CLOSURE

Let's review what we've learned today!

practice : part 6

What is your favorite extreme sport OR one that you would like to try?

Make a sentence using that extreme sport and go/play/do.

practice : part 7

Initial Steps

Making your first lesson can be a daunting and time-consuming task. Here are some steps to follow to help you. **Please remember that your team leader and team members are there to help you.** Do not hesitate or be afraid to ask for help and ideas.

1. Ask your team leader for your planning schedule. It can also be found on Dropbox in the “Term Schedule” folder.
2. Check which lesson you have been assigned for the next upload and check which book is needed. Be sure to check the book edition / publication year.
3. Check recent lesson uploads for that level on Dropbox to see what skills / grammar points have been covered recently or will be taught in upcoming weeks.
4. Read the unit in the book and identify the main topic / ideas.
5. Start brainstorming ideas for the lesson. (Check the brainstorming section for more information.) Brainstorming is normally completed during the weekly team meeting.
6. Once you have decided on an idea, scaffold the lesson on paper. **It is important to identify potential problems early to save time and energy later.**
7. Check that each section builds on the previous, flows well, and leads into the production. Remember that the practice sections should work to enable students to freely produce the target language in the production.
8. Consider what the balance will be between the worksheets and PPTs and how students will interact with the lesson.
9. Once you have the lesson scaffolded on paper, start working on the teacher pages and worksheets.
 - The worksheets are your limiting factor for space/content. The PPT can be used in tandem with the worksheets to provide additional information and content.
10. Find an appropriate PPT template and make the PPT. (This could be done at the same time as the worksheets.)
11. Ensure that the worksheets and PPT match up and work well together. Students should be able to recognize the content easily. (See the formatting section for help.)
12. Prepare your lesson for peer review, team leader review, and coordinator feedback. (See the review process section.)

Planning Assignment Schedule

Planning Assignment Schedule

As mentioned in the **Initial Steps** section, you will find your assigned lesson to make in the planning assignment schedule. This document is made each semester by the Elementary and Middle School Coordinators. It is available in the Term Schedule folder on Dropbox, and your team leader will give it to you when it is ready.

Each level has A and B planners. The names of the planners and their campus are shown below.

LEVEL	Zeus A Name / Name DAE / SPA		Zeus B Name / Name SUJ / BDG	
Fall Books	Subject Link 9		Subject Link 9	
30 Aug	Filler	SP	Filler	WR
Upload to:	Week 1		Week 1	
06 Sept	Unit 1	SP	Unit 2	SP
Upload to:	Week 2		Week 3	
13 Sept	Unit 2	WR	Unit 3	SP
Upload to:	Week 3		Week 4	
20 Sept	Unit 4	SP	Unit 5	WR
Upload to:	Week 5		Week 5	
27 Sept	Plan Ahead			
Upload to:				

The book for the semester.

The lesson's due date.

The week of the semester in which the lesson will be taught.

The unit of the book the lesson should be based on.
Note: As we have A & B planners, you will not make lessons for every unit.

Whether the lesson should be speaking or writing focused.

Plan Ahead
No lesson due.

Note: Plan ahead weeks are normally given around national holidays, DYB events, or busy periods. They are given for you to work ahead on your lessons, make use of the time wisely.

Brainstorming

Brainstorming

Brainstorming ideas for a lesson can often be the most difficult step. Below are some approaches for you to consider when doing so. Your team leader and other team members will always be willing to help with ideas, too! Try to think of your main lesson idea as soon as possible. Read the unit beforehand and keep it in the back of your mind. You never know when you might get a bolt of inspiration.

Note: We don't need to focus on grammar in our lessons, but we can use grammar points as a tool to support our lesson aims. Grammar could be presented as simple sentence patterns for lower levels.

Three Approaches

Production First	Skill First	Needs First
After reading the unit, think about what could be a good production activity. Then, consider what skill(s) students will need in order to complete the production successfully. These will be the focus of your practices.	After reading the unit, is there a specific grammar point that would work well? If so, is there a production that would allow students to freely use the grammar point?	Is there a common mistake that students in your class make? Check your lesson planning schedule and the unit topics. Is there a unit that would work well with the grammar point?
Example: The unit topic is about desserts. Production: Create a Recipe Skills Needed: -Cooking Verbs -Cooking Adjectives -Imperatives -Sequencing (Low levels might focus on one of these skills, whereas high levels could do more than one.)	Example: The unit topic is about extreme sports. Skill: Sport Verbs Consider: Can I make an appropriate production that allows students to freely produce the target skill? Some skills might not work depending on whether you're making a Speaking or a Writing lesson.	Example: Students struggle with the past tense. Look ahead on your planning schedule for a unit that would be suitable for the skill. Unit 3 – Desserts Unit 4 – Animal Defenses Unit 5 – Gender Differences Unit 6 – Galileo Unit 7 – Disgust Unit 8 - Ghosts

Linking

Each activity should fit cohesively into the lesson and help the overall flow. A good way to do this is to consider how to link activities together.

Warm-Up Activity

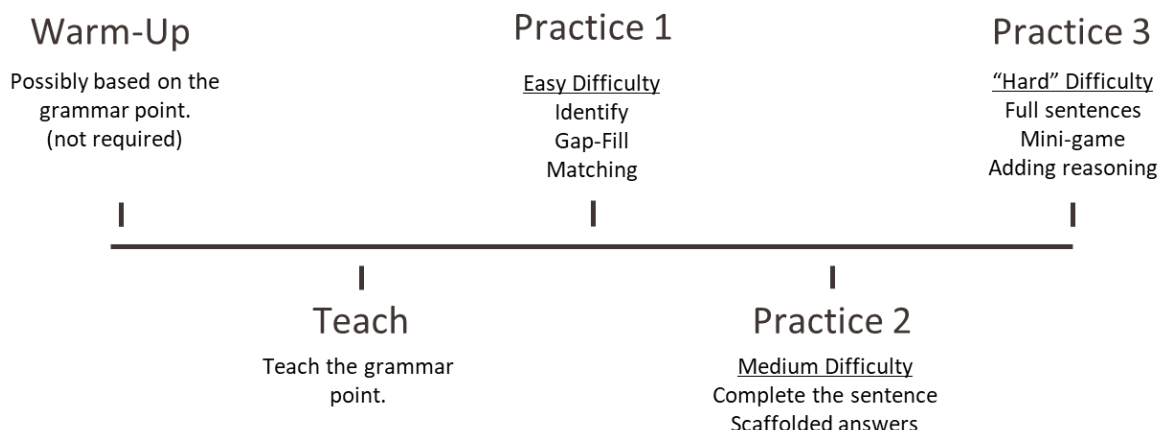

- Refer back later
 - A variation of the activity can be done again after learning the target language. They can learn the activity with simple expectations and then do it again with higher expectations of specific language use.
- Plant seeds
 - It could introduce examples or information required later in the lessons. (Example: If students need to write about a famous person, the warm-up could be guessing famous people based on their achievements, etc.)

Vocabulary & Book Information

- Unit vocabulary throughout
 - If we are reviewing the vocabulary at the start of the lesson, we should also include it throughout the lesson! Use key vocab words in examples, in questions, or in work banks. Try to encourage students to use the word when possible.
- Sentences and tasks inspiration
 - Examples and questions for activities can come from the book. Again, try to encourage the use of the Circular System and what they have learned with our co-teachers.

Scaffolding

For most lessons, the activities should not only flow well but also increase in difficulty leading into the production. Below is a suggested scaffolding structure. See the example lesson in this guide to see how this looks in practice.

Productions & Interactions

Production Activities

The production activity should allow **students to freely apply** what they have learned. Try to make the production activity **open-ended** and **creative**.

Speaking	Writing
Encourage as much speaking from as many students as possible. • Games (consider interactions) • Students speaking to each other • Group work • Movement in the classroom • Making short notes if needed Avoid • Writing and then reading • Writing heavy worksheets • Team games with just 1 student speaking	The focus should be on writing, but it doesn't need to be silent! • Individually or as a group • Short or long form • Use varied media • Game based • Consider providing structure for low levels Avoid • Sharing to the class • Drawing with no writing

Interactions

For each part of your lesson, consider the interactions which will happen in the classroom. Try to maximize the number of opportunities, and therefore, time that students are using English.

Teacher	Teacher - Student	Student - Student
The teacher is the focus of attention. • Explanations • Lecturing • Reading Design your lesson to avoid lots of lecturing or unnecessary explaining by the teacher. Try to <u>limit</u>	The teacher is interacting with students. • Checking / Sharing • Small talk • Some games Try to avoid designing activities that include a lot of this. It is limiting in larger classes. Try to <u>limit</u>	Students are interacting with other students. • Pairwork • Group work • Discussions This maximizes English usage. Move away from the PPT and have group activities. Try to <u>maximize</u>

Formatting

Formatting is an important aspect of lesson planning. **Bad formatting can ruin an otherwise great lesson!**

- Students should be engaged by the material.
- The PPT and worksheets should be easy to understand.
- The overall legibility of the PPT and worksheets.
- Space is used efficiently.
- Parents see worksheets.

We use PowerPoint for both the lesson PPT and worksheets. This helps simplify the formatting process and allows for transfer of content between the worksheets and the PPT.

Please watch the basic formatting tips video in the training folder if needed. Your team is always there to help you if needed and can they solve most PPT problems/queries easily.

Worksheet Formatting

Please refer to the example lesson worksheets on **pages 12-13** for example worksheet formatting.

Consider the following when creating your lesson worksheets:

- Instructions should be formatted clearly and be simple for students to understand.
- All information students need to complete the activity is provided first.
 - Don't put a word bank below the writing space.
- Worksheets should be formatted consistently across the lesson.
 - Font type & sizes. (Use one font size for titles and another for all text.)
 - Text boxes and shapes.
- There are clear divisions between activities. (This can be done with direction boxes / titles.)
- An appropriate amount of writing space has been provided for answers.
- A note taking box may be more appropriate than lines for some activities.
- Questions can be added or removed to best fit the space available.
- The worksheets match the PPT. You can copy between them and reformat as needed.
 - Copy & paste as a text box. **Do not paste as an image, others cannot edit!**
 - Change the color as needed to ensure visual clarity.
- Very light colors and **white text boxes** should be used due to B&W photocopying.
 - **It is difficult for students to write on dark boxes.**
- The worksheets should be easy for other teachers to edit.
- Images are used well. (To depict keywords & ideas, as decoration, to fill space, etc.)
 - Ensure that images do not have watermarks. Some are very faint, so check carefully.

PPT Formatting

Please refer to the example lesson PPT on **pages 18-19** for ideal PPT formatting.

There is a video on Dropbox that covers some PPT basics. Please also check YouTube for handy tutorials and ask your team if you have questions or issues!

Consider the following when creating your lesson PPT:

- How the PPT will look when projected in the classroom.
- There should be a good contrast between the background color and font color.
 - Light background and dark fonts recommended.
 - Fonts should be easy to read. **Legibility is the most important consideration.**
 - **Avoid white fonts. Dark fonts required**
 - **Aim to use size 18+ on the PPT.**
- If using a downloaded PPT template with custom fonts, the font information slide should be easy to see. (A hidden slide at the start of the PPT.)
 - The PPT attribution slide should also be kept.
- Slides should not be overloaded with text / information.
- Avoid "stacking" information on one slide, as it is difficult to check & edit.
 - Use multiple slides.
- The PPT should be easy for other teachers to edit.
 - Avoid downloaded fonts.
 - Don't use non-editable images of text.
- Use animations as needed, but don't overuse them.
- The PPT can work in conjunction with the worksheets.
 - Add additional explanations or examples.
 - Provide images or GIFs to illustrate an example or activity.
- Activities may be on the PPT only.
 - Provide detailed instructions on the teacher pages.
- Students should be able to recognize easily how the PPT relates to the worksheets.
- Use the PPT to introduce other resources / media.
- See the resources page for useful PPT websites (**Page 28**).
- PPT games and interactive features (timers, spinning wheels, etc.) are available online.

Formatting Example Explained

DYB Unit 3 – Extreme Sports
Do Your Best! Book: Real Deep 7 (Beginner & Basic)

Practice

Directions: Complete the following sentences using the given word and 'go', 'play' or 'do'.

- (jogging) I _____ every morning.
- (a warm-up) You should always _____ before exercising at the gym.
- (snowboarding) I want to _____ at a ski resort next winter.
- (dodgeball) I love to _____ during break time with my friends.
- (sit-ups) If you want a six pack, you should _____ every day.
- (golfing) My dad likes to _____ every weekend.
- (soccer) I _____ with my friends last Sunday.
- (camping) My family usually _____ during spring when it's not too hot.

Directions: Answer, in full sentences, the questions in the PPT (at least 10 words long).

- _____
- _____
- _____
- _____

Direction boxes always have the same formatting, are simple to understand, and keywords are bolded.

Ample space is provided for students to write their answers.

Images are used for decoration and follow a consistent design.

This light green background color photocopies as white.

This section relates to the PPT based activity (slide below). More detailed instructions are provided on the PPT. This could also be done as a speaking activity for stronger classes with no writing required.

Examples can be formatted differently (color, font, italicized, bold).

ANSWER THE QUESTIONS

Use the spinning wheel to complete the four questions below (spin the wheel 4 times). Then, answer the questions with a full sentence. Write a sentence that is at least 10 words long.

Example question: Do you like to...go/play/do_golf_?
 Written answer: Yes, I like to play golf because it's very fun!

- Do you like to...go/play/do_____?
- How often do you...go/play/do_____?
- Where do you...go/play/do_____?
- When last did you...go/play/do_____?

SPIN

soccer, badminton, exercise, walking, yoga, bowling, dodgeball, camping

practice : part 4

Resources

Here are some useful websites for lesson creation. You can also talk to your team to find other useful resources.

PPTS

<https://www.tes.com/teaching-resources> (Lesson inspiration)

Activity Database

On Dropbox, you can find example activities and lists of grammar structures for lessons. These can be helpful if you need a source of inspiration.

Other Lessons

We can draw inspiration from other people's lessons, but we cannot copy lessons. You can use ideas, games, activities, etc. from other lessons, but not the lesson in its entirety, with just a few changes made.

- Most games and activities are widely used and can be used freely.
- Credit the teacher in the teacher pages if using a unique game or idea.
- You can reach out to teachers if you would like permission to reuse their ideas. (Ask your team leader.)
- Try to be transformative in your usage of other's ideas. Adapt the idea to better suit the students' level and the reading book topic.
- Be careful of when the lesson will be taught and to which levels – We should avoid students seeing the same content twice.
- **If you are unsure about anything, please check with your team leader.**

Teaching Styles

During your initial training period and your ongoing training at your campus, you will have observed many teachers. In doing so, you will have seen many teaching styles and hopefully recognized ones that work best for you. Please keep this in mind when making your own lessons. They will reflect you and your approach teaching, but they also need to be **suitable for other teachers and classes**.

Consider your teaching style while making a lesson and also how others will use the same content. This might mean adapting your own lesson when you teach it to better suit your teaching style, but ensuring the file uploaded to Dropbox is appropriate for others.

Level Differences

It is important to understand the differences between levels and also variations within the same level. **Each semester, students complete a level test, which decides if they level up or remain at the same level.**

This test is used across DYB to try to ensure students in the same level are around the same English ability. However, please keep the following in mind.

1. Some students are new at DYB and may be weaker than their classmates.
2. At the start of a new semester, new classes of entirely new students may be formed. Overall, their general ability might not be the same as an existing class of students of the same level.
3. **The level test does not include productive skills and instead focuses on listening, reading, and grammar.** As such, students may score high on the receptive skills but be weak in the productive skills we focus on in our lessons.
4. Each campus has slightly different ranges in levels, so students' ability may vary by campus. Depending on the location and size of the campus, students might have higher ability levels compared to DYB as a whole.

Please keep this in mind both when creating lessons and adapting lessons.

- **We share lessons across DYB, so try to make your lessons appropriate for as many people as possible.**
- When choosing lessons, understand that someone else's experience with a certain level may be very different from your own.
 - **This is why adapting lessons to best suit your teaching style and the ability level of your students is so important.**

Teacher Pages

Teacher pages are an important part of a lesson plan. They explain the purpose of each activity, give detailed instructions on how to teach each section, and provide answers for each activity when needed. They can also include alternative instructions for activities, useful examples, or even just helpful teaching tips.

- When filling in your teacher pages, write them as if they are for a brand-new teacher, even if you have previous teaching experience.
- Try to keep instructions concise to ensure that people can read them easily and quickly.
- Highlight important parts.
- Remember to explain all games. Don't assume everyone will know them.
- Provide instructions on how games can have maximum student participation. Some activities may default to only 1 student speaking at a time, but can be adapted to have high levels of equal participation.

Adaptability

As we share lessons across DYP, it is important that lessons can easily be adapted by other teachers. They may have a class of different ability level, fewer students, or more students than your own. As such, lessons should be created with this in mind.

Dos

- Include clear instructions for teachers to follow.
- Have more content than necessary rather than too little.
- Provide alternative approaches to activities if possible.
- Ensure cut-outs are well formatted for ease of preparation and add a note about them in the materials section of the teacher pages.
- Remember that some campuses print in color and others in black & white.
- Consider the largest class size possible when creating games / activities.
 - Approximately 16 for elementary and up to 30 for middle school (20 on average).

Don'ts

- Use images of texts or photos of grammar explanations from the internet.
- Stack text or images on one PPT slide and use animations to reveal them.
- Rely on materials others will not have access to.
- Go off schedule or off content.
- Make examples specific to yourself, your area, a year etc.

Review Process

Review Process

Step 1 – Peer Review

- Most thorough checking stage.
- Conducted during the weekly team meeting on Wednesdays.
- Peer review is completed by one of your team members.
- Detailed review covering:
 - Lesson information, teacher pages, answers, worksheets, PPT, formatting, animations, grammar, spelling, and content.
- **Reviewer's name added to the lesson plan, and they are also responsible for its quality.**

Step 2 -Team Leader Review

- Second check after peer review and corrections.
- Focuses on overall content and flow, addressing broader issues.
- Minor mistakes may be not be caught.
- Team leaders can request more time for revisions from coordinators in case of illness, major corrections being needed, or other reasons at the team leader's and coordinator's discretion.
- Team leaders are responsible for uploading lessons to Dropbox folders.

Step 3 – Coordinator Review

- Final quality check after lessons are uploaded to Dropbox.
- Focus on overall quality with spot-checks on specific areas.
- Coordinators notify the team leader of any corrections or issues.

Post Upload

- Consult with your team leader if you amend your lesson after uploading.
- Report good lessons or those with issues for necessary adjustments. Check www.dybnhr.com for the reporting links.

New Teachers

During their first 2 months at DYB, new teachers will receive detailed feedback involving self-checks, peer reviews, and coordinator reviews. These are done on a Google training sheet provided by their team leader.

These checks help guide new teachers, offer advice on lesson planning, and set concrete goals for improvement. The process also encourages self-reflection and provides an opportunity to ask questions.

On the next page, there is an example of the new teacher lesson feedback form.

Lesson Feedback

New Teacher Lesson Feedback Form

This checklist is part of the new teacher training document on Google Sheets. During the training period, new teachers will receive more detailed feedback and comments each week.
